DUSTPANS

NEW New Baggy and Jobby versions

Baggy and Jobby dustpans are now available in the new version complete with space-saving **foldable grip**.

The grip closes with a simple click on the press-button, guaranteeing a minimal volume, a compact design, avoiding any accidental entanglement, especially during the transport and storing of the trolley.

NEW New Pocker versions

Filmop presents a new design of the Pocker dustpan: **new grip** and **new wheels** ø 80 mm to guarantee a better ergonomics and an easy handling during use and transportation.

Furthermore, Pocker dustpan is now available in the new **version with 4 wheels** to guarantee a better mobility and an easy handling during the waste collection operations.

Dusting systems

CLOTHS - TOUCH LINE

Every surface risks losing its qualities and features and being irretrievably damaged, if treated with the wrong cloths.

This is the reason why Filmop offers a new line of cloths and sponges: Filmop **TOUCH** line. Top quality products for the cleaning of any environment, from the floor to the most delicate surfaces. The right solution to obtain the best results in the shortest time and with the minimum effort.

TOUCH products are divided according to their cleaning features: **dusting**, **wiping** and **washing**.

Dusting

Cloths to use dry for a quick and daily cleaning; if damped with water or detergents, they are advised for a deeper and more professional dusting.

Wiping

Special resin coated cloths to use wet for a perfect cleaning; polishing effect and quick drying of the surface.

Washing

Products with high absorbing power for a deep and intensive cleaning of big surfaces or hobs.

Cloths for dusting

Dusting systems

DISPOSABLE CLOTHS

NEW

With the new **high absorbing disposable Dry-Up cloth**, realized by Filmop, you quickly solve spillage problems: thanks to its performance surfaces dry quickly with the maximum hygiene, allowing a fast restart of ongoing activities.

- **High absorbency in a few seconds:** the high absorbing polymers of the cloth soak up till 1000 ml from 30 to 150 seconds. Absorbing time and capacity depend on the type of liquid: Dry-Up can indeed absorb water, drinks, chlorine bleach, oil, urine and blood.
- **Maximum safety and hygiene:** the absorbed liquid is bonded safe in the cloth and transformed into gel, allowing a safe and hygienic disposal of the cloth, neither dripping nor trickle, and avoiding cross contamination.
- **High versatility:** perfect to be used in healthcare facilities, elderly homes, restaurants, bars, supermarkets, communities, schools, airports, public toilets, industries, mechanical workshops.

Put Dry-Up onto the leakage of liquid and wait until it absorbs it completely.
If necessary, move it slightly without lifting it to absorb the rest of the liquid.
Do not step on it, because it could be slippery.

Remove Dry-Up. The liquid, now transformed into gel, is bonded safe in the cloth, avoiding dripping and trickling.
Dry-Up leaves the surface completely dry, allowing a fast restart of ongoing activities.

Dispose of the cloth as general waste (please, comply with the specific protocol for hospital waste).
Then proceed with the cleaning of the area.

New microfiber RAPIDO SUPER

RAPIDO SUPER

80% Polyester - 20% Polyamide

Ultra-microfiber guarantees excellent cleaning results, higher efficiency and smoothness thanks to its fibers which penetrate into the grooves and pores of floors. Ideal for all inside floors with a medium-high degree of dirt.

90°

EU Ecolabel

Filmop International has obtained the prestigious **Ecolabel UE** certification for its **RAPIDO SUPER** microfiber mops, the most common and widespread European Union environmental quality label among consumers.

EU Ecolabel rewards the best low environmental impact products, qualifying them in the market and differentiating them from the competitors, after having evaluated their sustainability over their entire life cycle through a very selective series of parameters established by the European Union.

Disinfection systems

FUR LINE a new line of microfiber mops

SMART-FUR
100% Polyester

Thanks to its very thin fibers, **microfiber** acts physically and mechanically on particles of dirt removing and trapping them in its fibers. Ideal for dust mopping thanks to the high electrostatic power of its fibers and for spray cleaning.

ACTIVE-FUR
90% Polyester - 10% Polyamide

White **microfiber** with nylon inserts for a higher mop running and, at the same time, a better dirt collection. Ideal for the washing of smooth surfaces with a medium degree of dirt.

SKILL-FUR
80% Polyester - 20% Polyamide

White **microfiber** with blue stripes. Its special composition provides a perfect balance between cleaning power and smoothness. Ideal for the washing of smooth surfaces with a medium degree of dirt.

ENERGY-FUR
87% Polyester - 13% Polyamide

White **microfiber** with brushed blue stripes, intensive action. Polyester, thanks to its hooked micro-structure, generates non abrasive mechanical action of dirt removal. Polyamide, due to its high absorbing power, retains water and the removed dirt. Ideal for the washing of smooth surfaces with a medium degree of dirt.

ACTIVE-FUR - white microfiber pocket mop with grey nylon inserts and polyester backing

FLAT MOPPING SYSTEM WITH POCKETS AND FLAPS

New mops with POCKETS and FLAPS: 2 systems in 1!

Filmop has enriched its mop line with new models with **pockets** and **flaps** to fix the mop to the mop holder. Thanks to this new system **two different wet mopping systems** are combined in one single product with big advantages in terms of versatility and reduced stock costs. The mops with pockets and flaps can be used with disinfection mop holders and with Uniko mop holder.

Mop soaking systems

MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

EQUODOSE®
PATENT PENDING

Equodose is the innovating **mechanical dosing device** developed by Filmop to make the **mop soaking on demand** directly on site. This system is designed with an **adjustable dosing mechanism** according to the features of the mops to use and the surfaces to clean.

Features:

- **Totally mechanical and without electrical parts:** dosage is regulated by means of a graduated dial and operated thanks to a hand lever.
- **Strong and easy to maintain:** made of high quality polypropylene (Made in Italy), easy and low maintenance is required.
- **Safe and as by law enacted:** the graduated dial and tank can be blocked with the specific safety key device to avoid any tampering or improper use; hand level with push button to block the solution dispensing mechanism.
- **Modular design:** available with 1 or 2 tanks to increase the dosing system autonomy or to operate with two different detergents/cleaning solutions at the same time.
- **Versatile:** fitting Alpha line of trolleys. Suitable for several kinds of mops and mop holders: velcro system, pocket mop system and Duo Face mop system (only fitting 40 cm mop systems).

Advantages:

Advantages:

- **Prompt and ready in the working place:** mop soaking on demand and directly on site, just the necessary mops, even one single mop!
- **Minimum overall dimensions:** ideal in environments where there is a lack of big spaces to prepare and stock the pre-soaked mops and the hermetic buckets.
- **Eco-friendly product, low environmental impact:** water and detergent saving, as this system allows to soak only the necessary mops, eliminating any unnecessary washing of unused reserve mops in the washing machine. No need of electric power, no need of power supply, made of 100% recyclable plastic.
- **Easy to use:** just a few and simple steps and the mops are ready to use, high intuitive system.
- **Flexible:** you can regulate very accurately the right solution for each single mop according to the features of the surface to clean, the degree of dirt and the absorbing capacity of the mop.
- **High standards of hygiene:** reduction of cross-contamination risks, making easy and simple to clean each room with a different and ever clean mop. Tanks preserve active principles of some chemical solutions that could become less effective over time: this system is ideal for hospitals and healthcare facilities.

Mop soaking systems

MOP SOAKING ON DEMAND AND PRE-SOAKING SYSTEM

NEW New dosing system

Higher flexibility: thanks to the new dosing system, from a minimum of 50 ml to a maximum of 350 ml, you can dose more accurately the cleaning solution, even soaking lighter cloths, such as hand cloths for surfaces, and reducing wastes

NEW New tank

More effective: hermetic tank thanks to the internal washer of the cap, better preservation of the cleaning solution

Higher safety: the cap locking system improves the safety level

Higher hygiene: new design, with a wide opening and the new ergonomic handle, allows an easier cleaning and a good maintenance of the tank

How to use it

Rotate the graduated dial from 50 ml to 350 ml to choose the right dose of solution. If necessary, remove the safety key to lock the dial and keep the right dosage.

Push the mechanical hand lever completely down.

Take a clean mop and lay it on the tray ready for soaking with the cleaning side downwards.
Wait for a few seconds for a complete and uniform mop soaking. This system is suitable for several kinds of mops, but only for 40 cm mop sizes.

Window and floor cleaning line

BRILLIANT SYSTEM

Brilliant window cleaning system is the ideal solution for the cleaning of vertical smooth surfaces like interior window cleaning, mirrors, stainless steel surfaces, lacquered surfaces, painted doors, etc.

- **Fast:** the light and handy mop holder and the ultra-microfiber mop combined with a specific alcoholic-based detergent for surfaces, guarantee shining surfaces with just one wipe
- **High performance:** thanks to its excellent features, the specific ultra-microfiber mop removes fingerprints, smears, dust particles and dirt with excellent cleaning results
- **Efficient:** the use of a flat mop holder guarantees a considerable working time reduction in comparison with traditional hand cleaning systems and a perfect adherence of the mop holder to the surface
- **Ergonomic:** a handy and ergonomic cleaning system both with mop holder with hand grip and with mop holder combined with telescopic handle to safely reach also the highest areas

Kit **BRILLIANT**

FLOOR SQUEEGEES

Our **plastic floor squeegees** are composed of a polypropylene support and a single rubber blade and guarantee the highest hygiene and a very easy cleaning. Ideal for food industry, as **they can come into contact with foodstuffs** according to the existing European laws. Autoclavable up to 120° C, recommended also for hospitals.

The single rubber blade perfectly adheres to several kinds of floors and is resistant to low concentration acids and oil.

This floor squeegee can be used also as a scraper to eliminate possible deposits on the floor.

Plastic bins

PAPER BINS

NEW

For separate collection in environments such as offices, canteens and dining rooms, Filmop offers their **linked up Patty bins**: thanks to colour-coded lids and the **new removable linking system device**, which allows to combine either 25 L bins or 50 L bins together, it is possible to have an efficient waste collection area.

Today Patty bins 25 L and 50 L are available in the new version **complete with bag stretchers** to better support the waste bag.

News AlphaSplit: Best performance in the minimum space

NEW

ALPHASPLIT LINE

Versions designed to meet specific needs:

- Separate waste collection: possibility to customize it up to 8 different compartments for waste collection
- Space optimization: the main cleaning operations (waste collection, storage and washing) are all organized in a minimum space

BEST PERFORMANCE IN THE MINIMUM SPACE

Thanks to the innovative 90 L bag holder with removable lower drawer, it is possible to have waste collection, mopping and storing compartments in just 86x58 cm.

HIGH ERGONOMY

The new ergonomic push-bar is easily adjustable with just one click in order to suit the end user's height and grant the right working posture.

Housekeeping trolleys

ALPHA HOTEL

Alpha Hotel trolleys are simple and well designed and thanks to their colours they fit any environment.

Completely made of polypropylene, starting from the bases, vertical frames, shelves to the accessories, they are available in different version: completely open or with closing panels for a higher safety.

NEW

Thanks to several innovations and technical improvements, Alpha Hotel trolleys are **more practical and functional**.

New door with left opening

Trolleys with two storage compartments are standard available with the new door with left opening, designed for a **greater comfort and a more practical use**.

New versions without central vertical frame

The new version without central vertical frame guarantees a **higher capacity of the trolley**.

Link-Up: the new fixing system

Thanks to **Link-Up, the new fixing system** designed by Filmop, it will be possible to separate the bag holder compartment from the rest of the trolley with a simple click.

The **new independent waste collection unit** allows to work with a great freedom of movement and comfortably during all waste or laundry disposal operations, having an easy access also to small and reduced areas, such as elevators, small hallways and laundries.

Housekeeping trolleys

SILVER

NEW

Silver trolleys are practical and handy service trolleys, ideal for hotels, restaurants, company canteens and fast-food chains.

From now on Silver is also available in its **new version complete with plastic closing panels**:

- **Higher capacity and safer**: thanks to the plastic closing panels storage possibilities and stability during transportation are surely improved, thus offering an even more efficient service
- **Smarter and more versatile**: its neat and modern design with two colour options makes it suitable for all environments
- **More hygienic and ergonomic**: thanks to its smooth surfaces with rounded up corners it can be easily cleaned and thanks to its ergonomic push-bars it can be easily handled
- **Stronger**: Silver is handy and very strong as it is manufactured with aluminium vertical frames and plastic shelves/panels (up to 50 kg per each shelf)
- **More silent**: it is available also with rubber wheels \varnothing 125 mm, highly sliding and silent, with bumpers

NEW

New closed models with plastic panels, available in two different colours

Available also with rubber wheels \varnothing 125 mm and with shock-absorbing bumpers

Ergonomic, rounded shape and plastic push-bar

Accessories for trolleys

HOOKS

The operator often doesn't know where and how to hang his cleaning tools, like brooms, wet mop holders and other accessories on his trolley. Thanks to **Move**, the new **handle holder** of Filmop, all cleaning tools can be quickly hung to the trolley.

Move can be easily fixed to the handle with a simple click, preventing its loss thanks to the back fastening ring.

All Alpha trolleys are standard equipped with Move handle holder and its **support** designed to hang easily the handle holder to the trolley.

NEW

Now it is standard equipped also with a **new support** to easily hang the **warning sign** to the trolley reducing the overall dimensions and offering the possibility to hang another cleaning tool.
